

# ***SMALL ENGINES PROJECT***

## **POWERPOINT**

You will create a Powerpoint project that follows the evolution of a particular model of car, truck, or motorcycle.

Your presentation should have between 11-15 slides. The slide format should be as follows: Title, first model, first model engine, second model, second model engine, etc.

The requirements for the presentation are as follows:

- title slide
- detailed description of each model
  - body style, new technology, influences, etc.
- detailed description of the engine for each model
  - how many cylinders, hp, new technology
- a concluding slide that details why you admire this model of vehicle
